# Kwikfold Scaffold

Carefully designed, the Kwikfold system is ideal for one man use. Instant assembly with fold out frame. Just unfold and fit the platform and start work!

Easily portable and manoeuvrable. either open or closed, at a width of 730mm and height of 1970mm means the unit passes through most doorways.

Lightweight yet robust for industrial use - max safe working load 150kg.

Provides a working platform 1400mm x 600mm wide.

Six optional platform levels between 0.4m and 1.70m which will suit most requirements. For all those tight corners where height and space are limited, you can gain speedy, easy access with the Kwikfold - the essential low level platform.

This system folds flat for ease of transportation when manoeuvring between locations and for compact storage.

The Kwikfold comprises one folding frame, one trapdoor platform and four locking castors. (Adjustable castors for uneven ground are available)
